## The Presenters:

**SUE WALKER**, RN, BN, BN (ADMIN), MPH, MACN

Sue is the director and co-founder of the Nurses for Nurses Network. Sue is a key contributor to the online education platform Nursing CPD – a Continuing Professional Development platform to assist Nurses in meeting their annual CPD requirements.

As a Registered Nurse, Sue holds Degrees in both Nursing and Health Administration, a Master's Degree in Public Health, as well as a number of certificate courses in Psychiatry of Ageing, Gerontology, Chemotherapy Administration, and Training and Assessment. She is also an Accredited Mental Health First Aid Trainer, Mindfulness Practitioner, and Clinical Supervisor.

Sue has extensive experience as a clinician, educator, and senior manager. She has presented at local and international conferences on many topics including, key issues in healthcare, such as the psychological impact of the work that Nurses do and how the work requirements to deliver healthcare impact the health of the clinician. Other topics presented comprise of Nursing Leadership, Emergency Management, Mental health, Aged Care, Advanced Life Support, Assertiveness, Grief and Loss, and Workplace Bullying.

Sue is passionate about making a difference in how the community and Nurses experience the healthcare system.

“Nurses are the backbone of the healthcare system and work in difficult environments that can take advantage of their commitment to ensuring the best possible care is delivered. To continue to meet professional and community expectations Nurses and Midwives need to acknowledge their unique contribution to health care delivery and assert their collective strength to safeguard the community and ensure their ongoing professional needs are recognised and met.

Healthcare should be delivered by competent, knowledgeable individuals to ensure the best possible experience for the recipient of that care. Nursing is a fabulous profession. The knowledge and skill of the individual Nurse will have the greatest influence on the happiness and health outcomes of each and every client”.
