12-13 May 2027

# WOUND MANAGEMENT: PEEL, REVEAL & HEAL

## PRACTICAL SOLUTIONS FOR EVERYDAY WOUND CARE

GOLD COAST | 12 CPD HOURS

NURSES FOR NURSES

WOUND THERAPIES

## WHAT THIS SEMINAR IS ABOUT

This conference is all about practical solutions for everyday wound care. Wound management can be confusing and challenging. Why don't some wounds heal, what is best practice, which product works best.

We will look at some of the most common wounds encountered in clinical practice exploring the "peel, reveal and heal" for wound management.

Take part in scenario case-based workshop to explore different acute & chronic wounds, what are the best dressing techniques, what about supporting therapies and the all-important product selection.

## LEARNING OUTCOMES

At this seminar, participants will:

- Gain an understanding of wound healing with a practical approach to wound assessment
- Apply principles of wound management to common wounds
- Explore practical wound management planning with hands-on workshops using case studies for different wound types
- Participate in practical workshops exploring dressing products, ways to manage acute and chronic wounds

## YOU WILL ALSO LEARN

- An overview of the principles of wound healing
- A practical approach to wound assessment
- Explore wound care challenges for different wound types
- The differences between acute & chronic wounds
- Take away confusion and identify any barriers to wound healing
- To select the right dressing product for the wound presentation
- Understand best practice for different wound types
- Explore wound infection & inflammation: when to swab, dressing selection
- About adjunct therapies – what are they, when to use them
- How to manage a palliative wound
- All about skin care not just the wound peri-skin

*"Just wanted to say thanks for an amazing weekend of education. Seriously was the best conference I have ever attended, as well as the best value for money, the price for the conference was unbelievable.*

*I have attended conferences twice the price and have come away feeling disappointed.*

*Louise is not only an amazing, engaging and captivating speaker but her knowledge is extensive, relevant and up to date. What a privilege to have met her."*

- Kerri, Unpicking the Mysteries of Wound Management Products

## DETAILED ITINERARY

### DAY ONE: 12/05/2027

**0845 – 0900: Registration and Welcome**

**0900 – 1015: Why is Wound Management Confusing?**

This session jumps straight in with case studies and a chance to dress the wound.

We will look at why wound management is confusing, discuss the myths, clinical guidelines and challenges in practice.

Then we will explore how wounds heal and the reasons some wounds become chronic.

This session is designed to bring a practical approach to wound management and sets the scene for the workshop.

**1015 – 1045: Morning Tea and Informal Discussion**

**1045 – 1130: Is this Wound Acute or Chronic?**

When does a wound become chronic and why? This session will explore different common wound types you see in practice. You will learn about the differences in wound healing for acute & chronic wounds and how you can manage them

This session is designed to simplify your wound management so you can "peel, reveal and heal" with understanding the wound type and best practice.

**1130 – 1230: W.O.U.N.D Assessment (Part 1)**

Wound assessment is the key to your wound management plan. It doesn't have to be complicated

This session takes a practical approach to assessment for the busy clinician. Find out about what you really need to know and apply in practice.

**1230 – 1315: Lunch and Informal Discussion**

**1315 – 1415: W.O.U.N.D Assessment (Part 2)**

This session continues exploring wound assessment but with a practical approach. Participate in a workshop for assessing before dressing, learn about wound measuring & documenting

**1415 – 1500: A is for Acute Wounds**

Let's explore acute wounds in a hands-on session. This is a no-nonsense session to help you make informed and confident decisions for applying dressings to acute wounds. What is best practice for managing skin tears, post op or procedural wounds. Which dressings should you use?

This interactive workshop focuses on assessing & dressing acute wounds to maximise healing and minimise complications

**1500 – 1530: Afternoon Tea and Informal Discussion**

**1530 – 1630: C is for Chronic Wounds**

Let's explore chronic wounds in a hands-on session. This is a practical workshop to help you make informed and confident decisions for applying dressings to chronic wounds. We will explore lower leg ulcers, acute wounds that are not healing. How does it differ to acute wound management?

Designed for nurses in all settings this will help you make informed decisions to improve healing outcomes for your patients.

## DAY ONE CONTINUED:

**1630 – 1700: Back to the Beginning**

This session takes us back to the start of the day and the case studies. Has your dressing plan changed and why? We will recap the day's sessions and see how you can use our new knowledge in clinical practice

## DAY TWO: 13/05/2027

**0900 – 1030: Supporting Wound Healing**

This session looks at different therapies available to support wound healing. We will explore different modalities to help wounds heal that are in the Australian market. Learn about compression, light therapy and negative pressure wound therapy.

Participate in a hands-on session to start your day – you can compress to impress or put the pressure on!!

This session will leave you with a greater understanding of looking beyond the wound and using adjunct therapies as part of your wound management plan.

**1030 – 1100: Morning Tea and Informal Discussion**

**1100 – 1230: Is this Inflammation or Infection?**

How do we know if a wound is infected? Is it just inflammation that is stopping healing? This session explores the differences between infection and inflammation using the current clinical guidelines. We'll use clinical case studies to explore different examples with a practical session on different wound products to manage these wounds.

> *"It was a fantastic experience, learnt more about dressing types and how to use them appropriately. Got to connect with a variety of health care individuals with a range of experience. The course was detailed, interactive and engaging.."*
>
> - Ashleigh, Peel, Reveal and Heal

**1230 – 1315: Lunch and Informal Discussion**

**1315 – 1415: Taking the Pressure Off!**

This session is all about pressure injuries. We will explore staging, causes & practical wound management. Using case studies, you will explore different scenarios and learn about dressings & best practice. Learn about offloading, teamwork & prevention with a practical approach for the workplace.

**1415 – 1515: Peel, Reveal are Trying to Heal?**

Sometimes "healing" is not the wound management goal. We may be managing a wound conservatively or "palliatively". This session explores palliative & non-healing wounds with a practical approach including dressing types and approaches.

Feel empowered to support your patient with a practical wound management plan to address their needs when healing is not the ultimate goal.

**1515 – 1530: Afternoon Tea and Informal Discussion**

**1530 – 1630: Peel, Reveal What Does the Skin Reveal?**

Wound care is not just about the wound. What about the surrounding skin and beyond this? Is it dry, wet, inflamed, excoriated? Do you know how to manage this?

This session is all about looking beyond the wound with a practical workshop on skin products to support wound healing and prevent skin breakdown.

Designed for nurses in all clinical areas this hands-on workshop simplifies skin management for better outcomes.

**1630 – 1700: Questions & Summation**

## OUR PRESENTER

**Louise Webber, Masters Nursing Science (Nurse Practitioner), BA (Hons), RN**

Louise has over 25 years of experience in Wound Management and established her Private Practice (Wound Therapies) in 2014.

She has worked in several public hospitals and Community settings in Australia and overseas. She currently works collaboratively with several Aged Care Providers and private hospitals and runs her specialist community wound clinic.

Louise was previously an Honorary Clinical Fellow for Australian Catholic University and continues to participate in research projects with a leading Queensland University.

Louise is passionate about wound care and strives for best practices. Additionally, she has participated in several international working groups for Pressure Injuries and Leg ulcers and frequently presents at workshops, conferences & seminars.

She is a mum of two, loves the Sunny Coast lifestyle and attempting to play golf!

## REGISTRATION COSTS

$850.00 incl GST (NB: Registration cost doesn't include travel, accommodation, or travel insurance.)

## VENUE

Robina Events Centre, Robina Tafe Campus, 94 Laver Drive, Robina

## INCLUSIONS

- A seminar program based on current best practice
- A presenter who is excited to be able to share her skill, knowledge, and passion with attendees
- A seminar pack that includes a notepad, pen, and additional information to support a fantastic workshop experience
- Morning tea, lunch and afternoon tea
- A transcript that identifies each session including the session synopsis and session presenter
- A Certificate of Completion identifying the CPD hours for you to include in your CPD Evidence Portfolio

## INSURANCE

*The Nurses for Nurses Network and Education at Sea strongly recommends customers take out travel insurance at the time of registration for an event to cover any unforeseen circumstances that may prevent them attending and thus incurring any financial loss.*
